

HAZEM KHALED EZAT

Data Analyst · Python · SQL · Power BI · Front-End Development

+20 150 826 9570 · hazemelerefy@gmail.com · [linkedin.com/in/hazemelerefy](https://www.linkedin.com/in/hazemelerefy) · github.com/hazemelerefy · Cairo, Egypt

SUMMARY

Early-career data analyst with hands-on experience in SQL, Python, and BI tools developed through an applied analytics program and independent project work. Built KPI dashboards, SQL reporting workflows, and predictive analytics projects across the full cycle from data preparation and modeling to stakeholder-ready presentation. Front-end development experience adds the ability to deliver dashboard interfaces as well as the analysis behind them. A law background also strengthens work around business rules, compliance logic, and data governance.

WORK EXPERIENCE

Data Analyst

Digilians | MCIT · Cairo, Egypt · Dec 2025 – Present

- Built KPI dashboards in Power BI and Tableau that made recurring metrics self-serve, reducing the volume of one-off reporting requests.
- Developed SQL reporting workflows (PostgreSQL) that replaced manual data preparation steps and improved turnaround time on recurring reports.
- Designed relational schemas with full ERD documentation, improving consistency and traceability of data used in downstream reporting.
- Supported analysis drafting and SQL outlining with careful validation against source data before delivery.
- Presented findings to non-technical stakeholders through custom visuals designed to be readable without additional explanation.

SELECTED PROJECTS

Churn Prediction Model

Python · Scikit-learn · SHAP · Pandas

github.com/hazemelerefy/analytics-churn-prediction

Built a churn prediction workflow to identify customers at risk of churning. Included data cleaning, feature preparation, model training, and SHAP-based interpretation to explain the factors most associated with churn.

Global E-Commerce Sales Tracker

Power BI · SQL · Data Modeling

github.com/hazemelerefy/global-ecommerce-sales-tracker

Executive-facing dashboard covering revenue, profit, orders, and regional performance. Designed for KPI communication with interactive drill-downs that support faster commercial analysis.

Healthcare Operations Dashboard

Power BI · DAX · Star Schema · ETL

github.com/hazemelerefy/healthcare-operations-waitlist-dashboard

Power BI dashboard focused on waitlist pressure, patient flow, and service bottlenecks. Built using ETL preparation, star-schema design, and DAX measures to support operational decision-making.

Frontend E-Commerce Dashboard

React · Tailwind CSS · JavaScript · Recharts

github.com/hazemelerefy/frontend-ecommerce-dashboard

Responsive frontend dashboard interface with a product-style layout, reusable UI components, and clear data presentation for e-commerce analytics use cases.

SKILLS

Analytics:	SQL (PostgreSQL, SSMS) · Python (Pandas, NumPy, Scikit-learn) · Power BI · Tableau · Excel (Advanced) · DAX · ETL · Star Schema · Data Warehousing · Statistical Analysis
ML:	Classification Models · SHAP Analysis · Feature Engineering · Model Evaluation (AUC, F1, Confusion Matrix) · Predictive Modeling
Front-End:	HTML5 · CSS3 (SASS, Tailwind) · JavaScript (ES6+) · React.js · Next.js · Figma · REST API Integration
Tools:	Git · GitHub · Jupyter Notebook · Google Colab · VS Code
Languages:	Arabic — native · English — professional working proficiency (B2)

EDUCATION

Diploma, Applied AI & Data Analytics

Digilians | MCIT · 2025 – 2026 (in progress)

Python, SQL, Machine Learning, and AI agent systems.

Bachelor of Laws — Commercial & Corporate Law

Port Said University · 2020 – 2024

Business regulations, corporate governance, and commercial contracts.

Nanodegree, Front-End Web Development · GPA 4.0 / 4.0

Udacity · 2022 – 2023
